DETAILED ACTION

Applicant(s) Response to Official Action

- [1] The response filed on October 13, 2008 has been entered and made of record.

Response to Arguments

- [2] Presented arguments have been fully considered but are held unpersuasive. Examiner's response to the presented arguments follows below.

Claim Rejections - 35 USC § 103

Summary of Arguments:

Regarding claims 1 and 15 applicant argues that high curvature regions are not "reliable image features" [Remarks: page 7, para. 2].

Examiner's Response:

Examiner respectfully disagrees. The claim does not require any criteria to be met in order to qualify as "reliable image features". Hence, any feature can be qualified as "reliable image features". Accordingly, Examiner maintains the rejection.

Specification

- [3] Priority applications need to be cross referenced in the first page of the specification or by filing an Application Data Sheet (ADS). See MPEP 201.11 and 37 C.F.R. 1.78.

Claim Rejections - 35 USC § 103

[4] All claims are rejected as per discussion in the previous non-final action (mailed on 07/11/2008), which is incorporated herein by reference.

Conclusion

[5] **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
